

Army Large Area maintenance Shelter Sustainment Operations

Briefing To: JOCOTAS 19 May, 2015

Matt Cooke, TACOM ILSC

TACOM LAMS Overview

Purpose:

- Provide overview of TACOM Integrated Logistics Support Center (ILSC) Soldier Product Support Integration Directorate (Soldier PSID) Large Area Maintenance Shelter (LAMS) support concept.

Scope:

- Procurement Efforts
- Logistics Services Support

Bottom Line—Soldier PSID is positioned to be the Army's central point of LAMS procurement and sustainment requirements.

Army LAMS

Requirement

- Commercial item
- Only documented requirement is for 88 Shelters in APS
- No LIN and not a program of record
- A12 Managed Item
- Non-APS requirements customer funded

Utilization

- 500+ LAMS used in OEF and OIF
- 40+ LAMS already supporting OIR
- Maintenance and repair haphazard
- Limited reutilization of shelters

The Army Needs a Sustainment Plan for this System

TACOM Intent

Critical Capability

- Procure LAMS
- Procure Repair Parts
- Procure Technical Services
- Maintain/build core competency of trained equipment specialists

Sustainment Functions

- Reset/Recovery Capability
- Item Management
- Loan Management
- Prepare and maintain MILPERF—new MILPERF complete
- Provision parts/Tech Manual support
- Deployment Support
- Disposition management

TACOM Execution

Established LAMS Support Team

- 2 ILSC Individuals
 - Team Leader--Paul Brooks
 - Item Manger--MSG Bristol-Plentie
- Share additional Item Management/Equipment Specialist with Force Provider
- Establish Army wide maintenance support
- Leverage Contracts
 - Support will be provided by contractors coordinated through the ILSC.
- Team with NSRDEC to staff
 - Ensure trained and experience workforce
 - Accomplish inherently Governmental tasks
 - Support deployed locations where required

ARCENT Support

- 50+ LAMS supporting OIR, Patriot batteries, and theater aviation
 - Many are 5+ years old and have received little maintenance
- ARCENT requested and funded two person LAMS Support office
 - Funded through end of FY15
 - Expected to be requested through FY16 and possibly beyond
 - Manning office with 1 TACOM and 1 NSRDEC employee
- Evaluate, repair, and support install and strike of LAMS
- Procure stock, store, and issue repair parts
- Team is based in Arifjan and available to travel throughout theater
 - Iraq Visas causing significant delays
- Team will support the build of 16 shelters between June and August
